## Tools

### Turbo

This user's guide does not provide support for Turbo; however more information is available at:

<http://gears.google.com/>

**NB:** Before using Turbo you should consult with All Things Quilting.

### Press This

Some of the following information has been sourced from Lorelle on WordPress:

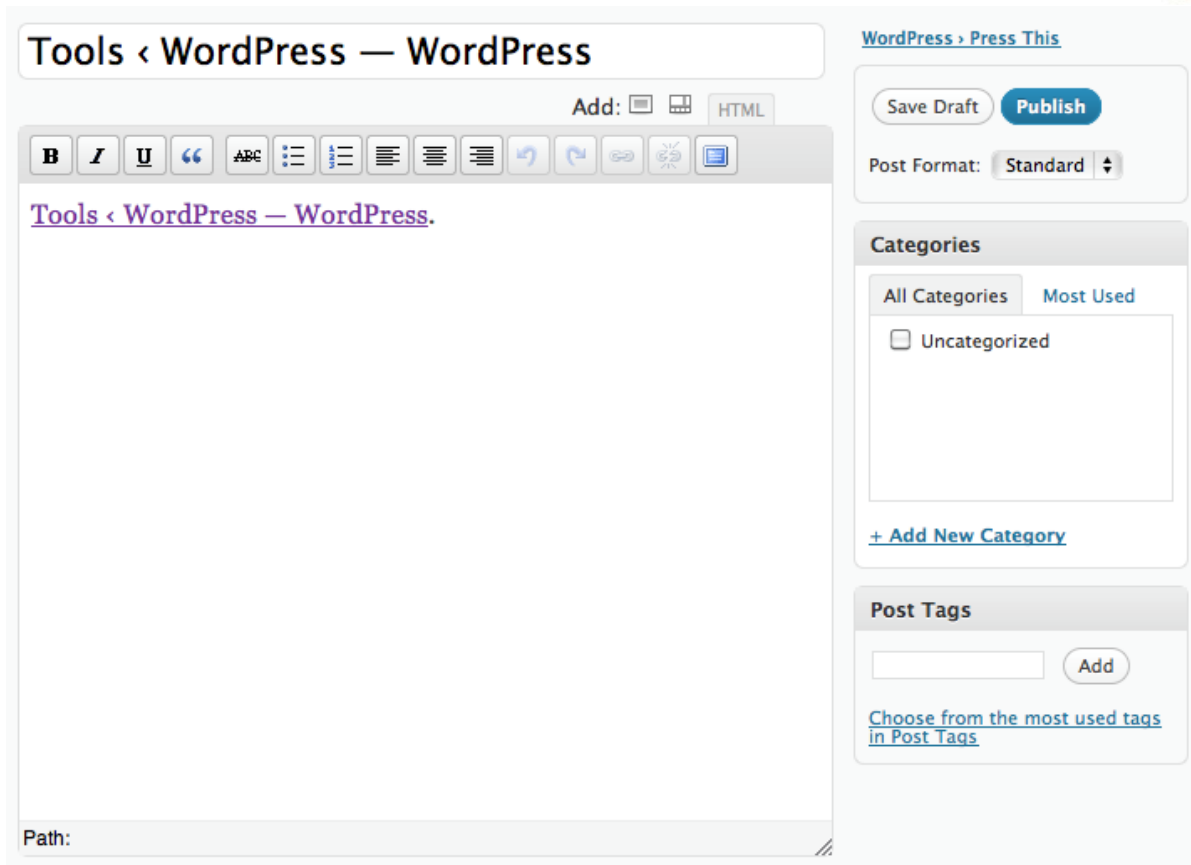

<http://lorelle.wordpress.com/2005/09/15/wordpress-power-user-features-just-press-it/>

**Press This** is a bookmarklet: a little application that runs in your web browser (Internet Explorer, Firefox, Safari) and lets you grab bits of websites and publish them on your website.

You need to save the **Press This** application to your bookmarks or favorites before you can use it.

Then, when you are visiting a site you want to post about on your website, just click the **Press This** link in your favorites or bookmarks and a window will pop up with either your website's **login** or, if you are already logged in, a condensed version of the Write Post screen. Inside will be the title filled out with the title of the website you are visiting (if there is one) and a link in the **Editing** text area. You just fill in the text, mark the categories, then save it as a **draft** or **private** or **publish** it.

The **Press This** screen looks like this:

**NB:** Before using **Press This** you should consult with All Things Quilting and you should seek legal advice regarding using content from other websites on your own site.
